Fixed Industrial Scanners

Track and trace from production to distribution

Easily keep track of every part and package with Zebra's range of fixed industrial scanners. Their upgradable features grow to meet evolving business needs.

FS10 Fixed Industrial Scanner

Easily track and trace items as they move through the warehouse and distribution center with Zebra's compact plug-and-play FS10.

FS20 Fixed Industrial Scanner

Zebra's smallest networkable fixed industrial scanner integrates high-quality scanning to track and trace every item as it moves through production, storage and fulfillment.

FS40 Fixed Industrial Scanner

Broad capabilities meet complex barcode capture requirements and can be tailored to specific needs, with flexible options like decode range, illumination, connectivity and power.

FS70 Fixed Industrial Scanner

Completely customizable scanner facilitates challenging track-and-track operations.

Choose from a variety of C-mount external lens and lighting options to achieve the working range and field of view the application and environment requires.

GS20 Connectivity Gateway

A powerful industrial connectivity gateway enables scan tunnel configurations to substantially increase package tracking and sorting throughput.
